

CFOA Playoff Test 2018

Each official is required to demonstrate his rules knowledge by passing a custom and randomized test approved by the CFOA Board with the passing score of 85% or better. This is a test of NFHS rules questions that reflect unique occurrences on the field.

The test is 20 questions.

Failure to pass the playoff test means no playoff assignments for 2018. This test does not apply to varsity assignments during the regular season. For regular season varsity assignments, the official must pass two separate tests; 1) NFHS rules test and 2) CFOA mechanics test. If an official does not desire to work post season playoffs, this playoff test is not required.

This test should not be confused with the playoff video test offered in prior years. This test is not video related. The former playoff video test is not applicable for 2017 and 2018.

Officials may look up answers in the NFHS football rules book.

Three attempts to take the test will be available.

The playoff test will be offered on Arbiter from 7/15/18 to 8/22/18.
