.....
*The CTFOA & CHSAA have approved the **above State Satellite Clinics designed specifically for officials** for the 2018 Track & Field and Cross-Country Seasons. Coaches may also attend. However, these clinics are greater in length and will cover information above and beyond the New Rules for 2018. Coaches who attend one of the above clinics will receive credit from CHSAA for attending a yearly mandatory clinic.*

*Out of the blocks, league meetings, etc. are being offered around the state for coaches to satisfy the CHSAA requirement for a New Rules Clinic. These “New Rules Clinics” for coaches are being scheduled independently by schools / leagues around the state. Coaches Rules Clinics are designed specifically for coaches. Schools / Leagues **must** make arrangements with a Certified Rules Presenter that has been identified by the CTFOA to present at their site. A list of these presenters can be obtained from Gary Strubel, President of the CTFOA gharleyclassic@gmail.com. The rationale for requiring certified officials who attended the Master Clinic in Aurora on 1-26-18 or 1-27-18 is designed to maintain a consistent presentation of the rules across the state.*

*All officials must attend one of the clinics listed **above** as **NO** other clinics are being offered.*
